11 September 1985

STAT MEMORANDUM FOR: [REDACTED]
Legislative Liaison

STAT FROM : [REDACTED]
Curator, Historical Intelligence Collection

SUBJECT : Meeting with Two House Staff Members

1. On 28 August 1985 I had lunch outside Headquarters with Tom Smeeton of the House Foreign Affairs Minority Staff, and Dr. John Dugan, Staff Director of a Subcommittee of the House Committee on Science and Technology. The event occurred at the initiative of Smeeton, who wished to reunite three individuals who had been in graduate school together. While the event was mainly a social occasion, two subjects raised are worth LL's attention.

STAT 2. Noting Dugan's position I raised the case of [REDACTED] who
STAT works in HIC and has been nominated by [REDACTED] of WDM to be a candidate
for the Space Shuttle; NASA is interested in testing the effects of zero
gravity on victims of multiple sclerosis. Dugan enthusiastically offered to
STAT help lobby on the Hill. He said he had been with NASA for 12 years, believed
the experiment well worth doing, and would be willing to speak to the Chairman
of his Committee, which, he pointed out, approves NASA's budget. I thanked him
for his offer, and said I would pass it along to [REDACTED] who could mention it
STAT the next time [REDACTED] contacted her. Since then [REDACTED] has been in
STAT contact with Dugan and others whose names Dugan provided to her.

STAT 3. For LL's background, I should add that I notified the Director of OCR
and the Office of Public Affairs of [REDACTED] approach to [REDACTED] when it
occurred three weeks ago. I have informed D/OCR of this informal offer of
Congressional support but will let LL pass on this particular news to Public
STAT Affairs if it wishes to do so.

STAT 4. The second topic concerned a new book just received in the Historical
Intelligence Collection, Viktor Suvorov's Aquarium. Smeeton said that
Representative Henry Hyde had a strong personal interest in the Shadrin case
(a Soviet defector lured back by the Soviets). I commented that Aquarium
contained a reference to that case and I would be glad to send Smeeton a stock
copy for Hyde's retention, but I would notify LL.
